Policy on Changing Rooms and Showering

Market Deeping Cricket Club (The Club) is committed to ensuring that all Children (i.e., all persons under the age of 18) participating in cricket have a safe and positive experience.

In addition to the requirements of the Club's Safeguarding Policy we expect the following from our members with regard to adults and children sharing the Club's changing rooms and showering facilities.

- ⦿ If adults and children need to share the changing facilities, they **must** do so at different times - it is the adults' responsibility to make sure that this is adhered to
- ⦿ Adults **must not** change, or shower, at the same time using the same facility as children - it is the adults' responsibility to make sure that this is adhered to
- ⦿ Mixed gender teams **will** use separate male and female changing rooms
- ⦿ Due to the risks of inappropriate photography or filming, mobile phones **must not** be used in changing rooms when children are present
- ⦿ If children are uncomfortable changing or showering at the Club, no pressure should be placed on them to do so and it should be suggested that they change and shower at home instead
