

## Saffron Walden Cricket Club

### Mission Statement

Saffron Walden Cricket Club seeks to set standards in sport which are capable of being transferred to other clubs. It sees itself as rooted in its community with a strong amateur ethos which aspires to high standards on and off the field. It sees itself as a club for players young and old and their families and seeks to provide an inclusive club ethos which unites people interested in cricket.

It wants to develop a coaching programme throughout the club that enables each age group at junior level and each team at senior level, supported by volunteers, to be in contention for honours whilst at the same time ensuring that all members have opportunities to play cricket throughout the summer. To support this the club will provide first class facilities including training facilities and purpose built clubhouse.

A pyramid of participation is our ambition from an inclusive membership policy enabling cricketers of all abilities, regardless of gender, race, nationality or sexual orientation, to enjoy the game, as well as providing opportunities for all to aspire to play at the very highest level of club cricket that is available. All players should be able to play cricket at the highest level at which they are capable and at which they continue to enjoy the game.
