Sunday Team Captains Report 2020

Due to the Pandemic we were only able to play five friendly fixtures this season. The games we did play however were good fun and played in the right spirit from our team.

The aim this season was to have a good mix of young players learning the game, Social players, Albrighton roses players and senior 1st and 2nd team players all under no pressure to perform but to enjoy playing while we could.

We played against some teams whose philosophy was a bit different to ours but never- the less, it was brilliant to see the young players show off their skill against decent opposition.

Wellington away was a particular highlight where 6 players who were eligible for the u15's played and competed well against a largely experienced team. Alex Parker opened the batting brilliantly scoring 67 (63 in the official score card) and Harry Brookes helping himself to 26 against the stronger bowlers.

The Last game we played was a 30 over game vs Matt Brookes Surgeons team. It was a fun way to end the friendly fixtures against team similar to ours in terms of ability and it went right to the wire.

It's been a pleasure to captain the team, something I thought I'd never do when I started playing around 8 years ago!

I hope we get to play next season and get the chance to enjoy the games, get new players involved, improve young players knowledge and get senior 1st and 2nd team players to play to pass on their knowledge.

Rich Wild
